

# National Diabetes Prevention Program

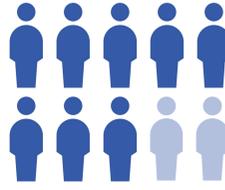

Working together to prevent type 2 diabetes

## The Growing Threat of Prediabetes

98 million American adults—**more than 1 in 3**—have prediabetes

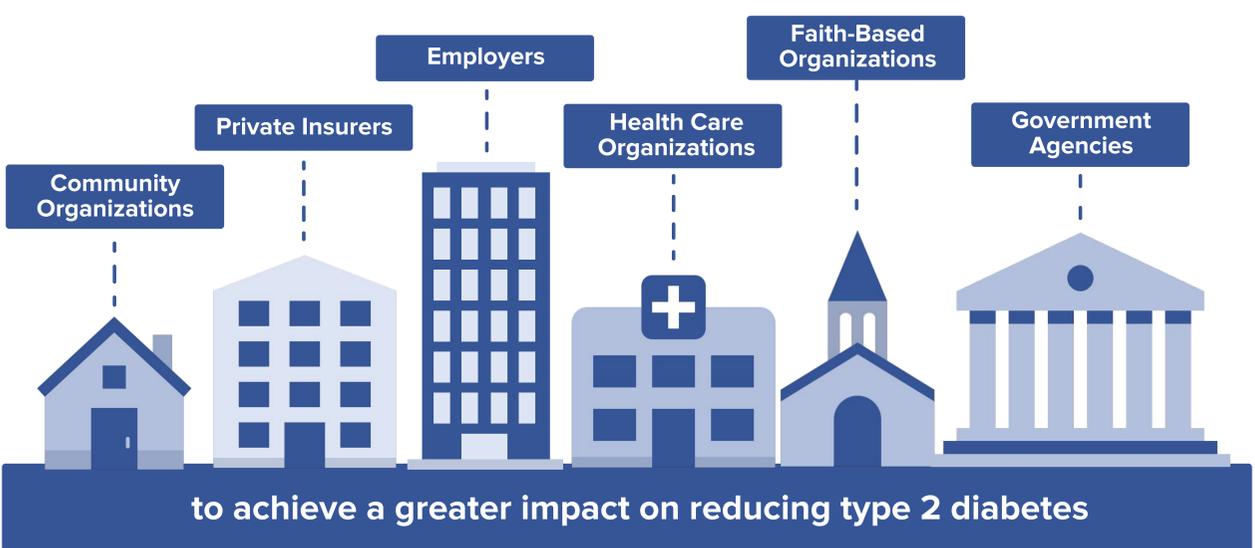

**More than 8 in 10** adults with prediabetes **don't know they have it**

## About the National Diabetes Prevention Program

Congress authorized CDC to establish the **National Diabetes Prevention Program (National DPP)**, a public-private partnership working to build a nationwide delivery system for a lifestyle change program **proven to prevent or delay type 2 diabetes** in adults with prediabetes.

It brings together:

## Lifestyle Change Program

A key part of the National DPP is a **lifestyle change program** that provides:

**A trained lifestyle coach**

**CDC-approved curriculum**

**Group support over the course of a year**

## CDC is working to:

**Build a workforce** that can implement the lifestyle change program effectively

**Ensure quality and standardized reporting** of participant outcomes in the program

Deliver the lifestyle change program through organizations **nationwide** and **sustain** it through public/private payer coverage

**Increase referrals** to and participation in the lifestyle change program

## Join in this National Effort

Everyone can play a part in **preventing type 2 diabetes**.

**Raise awareness** of prediabetes

**Share information** about the National DPP

**Encourage participation** in the lifestyle change program

**Promote the National DPP lifestyle change program** as a covered health benefit

Find out how to get involved in the **National DPP**
