12:00	Adjourn	-	-

Note: The HICPAC meeting to be convened on November 2-3, 2023, is the target for HICPAC’s review of the first section of the first draft of the revised Isolation Precautions guideline. The proposed first part of the update is about general transmission principles and will not include any recommendations for the types of precautions that should be used for specific pathogens.

¶ Denotes sessions for which a vote is anticipated.

*Workgroups may present draft versions of proposed changes to the HICPAC committee for vote. Members weigh public discussion and the presented data. If the membership votes to approve the draft, it will then be submitted to CDC for review. If approved by CDC, the draft will be posted to the Federal Register for 60 days for public comment; if not approved by CDC, the draft will be returned to HICPAC with comments for consideration. [Click here for more information on the HICPAC guideline development process.](#)
