INTRO_J1
INTRO-J1. For this last part of the interview, I'll turn the computer over
           to you so that you can enter your answers yourself. We have these
           headphones so that you can listen to the questions in privacy, and
           you can also read the questions on the computer screen. I will
           not be able to hear the questions or see the answers you type into
           the computer. After I explain a few of the keys that you'll be
           using, I'll help you with the first few practice questions, just
           to get you started. Then I'll leave you on your own to answer the
           rest of the questions in privacy.

           When you are done with this section, a screen will come up that
           will tell you how to lock away your responses so that no one can
           see how you answered the questions. Then you can return the
           computer to me.
