VARIABLES IMPORTED FROM PRELOAD:

SAMPLEID:	10 DIGIT SAMPLE IDENTIFICATION NUMBER IDENTIFYING HOUSEHOLD
PROJ_ID:	30 CHAR STRING PROJECT (TEXT) DESCRIPTION
	PROJ_ID IS PRELOADED INTO THE SCREENER AND PUSHED INTO THE MAIN INSTRUMENT AS "PROJECT_ID". THESE TWO VARIABLES USED TO SEPARATE MAIN, TRAINING, AND CERTIFICATION INTERVIEWS.
PART_ID	2 CHAR STRING WE WERE NEVER ABLE TO TELL WHAT THIS WAS USED FOR IN THE C6 INSTRUMENT BUT ALL THE DATA APPEARS TO HAVE "CD" AS THE VALUE FOR THIS ITEM
STATE	50 CHAR STRING STATE WERE SCREENER CONDUCTED (PASSED TO ST AND THEN INTO THE MAIN INSTRUMENT VIA RSTATE)
ADD_NUM	ADDRESS NUMBER (STRING LENGTH 20)
STREET	STREET NAME (STRING LENGTH 40)
APT	APARTMENT NUMBER (STRING LENGTH 30)
CITY	CITY (STRING LENGTH 30)
ZIP	ZIP CODE (STRING LENGTH 10 [9 + MASK])
ASK_INFORMANT:	VARIABLE PRELOADED FROM ST. USED TO DETERMINE IF THE INTERVIEWER SEES THE SC-1B INFORMANT QUESTION. THE PRELOAD VALUES CAN BE 1 (PROXY ALLOWED) OR 5 (PROXY NOT ALLOWED—DEFAULT SETTING).
	{NOTE THESE 24 PRELOAD VARIABLES ARE USED FOR THE MEASURE OF SIZE SELECTION PROTOCOL A DESCRIPTION OF THIS CAN BE FOUND ON THE NEXT PAGE.

DESCRIPTION OF THE 24 VARIABLES REPRESENTING THE MEASURE OF SIZE:

The previous 24 variables represent an array in the screener that holds the preloaded MOS selection criteria (also known as the "measures of size") from IFMS. However, the C6 Blaise instrument stored these values in the variables named PreloadScreen01- PreloadScreen24. Below is an illustration of what cell correlate to the PreloadScreen[X] variables.

Age	Female			Male		
	Black	Hispanic	Other	Black	Hispanic	Other
15 – 19	PreloadScreen01 **FAA1519**	PreloadScreen02 **FH1519**	PreloadScreen03 **FW1519**	PreloadScreen04 **MAA1519**	PreloadScreen05 **MH1519**	PreloadScreen06 **MW1519**
20 – 24	PreloadScreen07 **FAA2024**	PreloadScreen08 **FH2024**	PreloadScreen09 **FW2024**	PreloadScreen10 **MAA2024**	PreloadScreen11 **MH2024**	PreloadScreen12 **MW2024**
25 – 44	PreloadScreen13 **FAA2544**	PreloadScreen14 **FH2544**	PreloadScreen15 **FW2544**	PreloadScreen16 **MAA2544**	PreloadScreen17 **MH2544**	PreloadScreen18 **MW2544**
45 – 49	PreloadScreen19 **FAA4549**	PreloadScreen20 **FH4549**	PreloadScreen21 **FW4549**	PreloadScreen22 **MAA4549**	PreloadScreen23 **MH4549**	PreloadScreen24 **MW4549**

The following is an example of the screener preload string that comes from IFMS:
301001859^SRC.SRO.NSFG.SCREEN.TEST1^CD^^Maryland^1234^Apple Ave^^Hyattsville^**12345^<u>ASK INFORMANT</u>**^F01^F02^F03^F04^F05^F06^F07^F08^F09^F10^F11^F12^M01^M02^M03^M04^M05^M06^M07^M08^M09^M10^M11^M12

Also the zip code can also be 12345-1234 (in other words, you can add the mask and the additional 4 digits).

Below is how this previous preload string would look in the MOS table:

Segment 301	Female			Male		
Age	Black	Hispanic	Other	Black	Hispanic	Other
15 - 19	^F01	^F05	^F09	^M01	^M05	^M09
20 - 24	^F02	^F06	^F10	^M02	^M06	^M10
25 - 44	^F03	^F07	^F11	^M03	^M07	^M11
45 - 49	^F04	^F08	^F12	^M04	^M08	^M12

MOS values as of January 12, 2022. Values potentially change across years of data collection. Year 1 values shown here.

Age	Female			Male		
	Black	Hispanic	Other	Black	Hispanic	Other
15 - 19	1.0000	1.0000	1.0000	0.9091	0.9091	0.9091
20 - 24	0.2500	0.2500	0.2500	0.2273	0.2273	0.2273
25 - 44	0.2500	0.2500	0.2500	0.2273	0.2273	0.2273
45 - 49	0.2500	0.2500	0.2500	0.2273	0.2273	0.2273

Therefore the MOS preload string for Year 1 (2022) would be:
^1^0.25^0.25^0.25^1^0.25^0.25^0.25^1^0.25^0.25^0.25^0.9091^0.2273^0.2273^0.2273^0.9091^0.2273^0.2273^0.2273^0.9091^0.2273^0.2273^0.2273

SCDESCRP

SC-0aa.   We are doing an important study called the National Survey of Family Growth (NSFG). To prepare for this study, we are asking a scientifically selected sample of households to take part in a brief screening survey. Any adult who lives in this household can answer the brief screening survey. Based on the answers to the screening questions, you or someone else in your household may be asked to complete the main NSFG survey. **The selected person will receive (TOAAMT_FILL) as a token of appreciation**. Thank you for your help with this important study.

CUMPROB [X] creates and stores the value that is used with the
randomly generated number (RchoiceRandom) to select the
respondent. I have illustrated how this variable is created,
below in Figure 1. An additional note, if the HH member is
ineligible the **CumProb[X]** is set to equal **CumProb[X-1]** and their
PersProb is set to 0. This is done to force the program to skip
or ignore these individuals in the section of the respondent and
the last eligible **HHmember** is always set to have a value of 1
(as seen in Figure 2).

Your teenager has been selected to participate in the National Survey of Family Growth (NSFG). This study is being done for the U.S. National Center for Health Statistics by RTI International (RTI), a nonprofit research organization. The survey has questions on a wide range of topics, including family life, marriage, family planning, sexual experience, pregnancy, health and health care. The survey will only ask questions that apply to your teenager. The information will be used to help understand health and health behaviors in the U.S. The survey lasts about 45 minutes. Answers to the questions will be entered [FILL IF WEB: online; IF FTF: into a tablet computer].

Your teenager has been scientifically selected to represent thousands of other teenagers across the country. Your teenager's participation is very important and helps the survey results to be accurate for all teenagers. Your teenager will receive $[FILL AMOUNT] as a token of appreciation for their help in this survey. This monetary token of appreciation is not based on your teenager's time spent on the survey.

By Federal law, your teenager's answers are confidential*. We take all possible steps to protect your teenager's and your family's privacy. Your teenager's answers will be used for statistical analyses only and will not be shared with you or other family members. Information is only presented in summary form. Individuals or families cannot be identified. To keep your teenager's answers confidential, it is important they do the survey in a private setting. [FILL IF FTF: This brochure, which you may have seen earlier, answers questions people sometimes ask about the survey.] [FILL IF WEB: The brochure you received in the mail with your survey log-in information answers questions people sometimes ask about the survey.]

Giving your permission does not mean that your teenager has to do the survey. It just means that we have your permission to ask your teenager to participate. Your teenager is free to decide to do the survey or not. Saying yes or no to taking part in the survey will not change any benefits you or your teenager gets now or in the future. For most people, the survey is interesting and enjoyable. Some of the questions in the survey may be sensitive for some people. Your teenager may choose not to answer any question for any reason and may stop the survey at any time.

You may have questions about your teenager's rights as a participant in this survey. If so, please call the office of the Ethics Review Board at the National Center for Health Statistics, toll-free, at 1-800-223-8118. Please leave a brief message with your name and phone number. Say that you are calling about Study Number **2021-07**. Your call will be returned as soon as possible. If you have other questions about the NSFG, you may call Dr. Anjani Chandra or Dr. Gladys Martinez, toll-free, at NCHS: **1-866-227-8347**, or visit the NSFG webpage: www.cdc.gov/nchs/nsfg.htm.

I have read the study letter and brochure. You may ask my teenager to take part in the study.

One important law that protects your confidentiality is Section 308(d) of the Public Health Service Act (42 U.S.C. 242m(d)). The other two laws are the Confidential Information Protection and Statistical Efficiency Act (CIPSEA, Title III of Public Law 115-435) and the Privacy Act of 1974 (5 U.S.C. 552a). Section 306 of the Public Health Service Act (42 U.S.C. 242k) allows us to carry out this survey. Transmissions across the internet into Federal information systems may be monitored for cybersecurity purposes in accordance with the Cybersecurity Enhancement Act of 2015 (6 U.S.C. §§ 151 and 151 note). In addition to the above cited laws, NCHS complies with the Federal Cybersecurity Enhancement Act of 2015 (6 U.S.C. §§ 151 and 151 note) which protects Federal information systems from cybersecurity risks by screening their networks.
